Press & Hold "Next" button for 2 seconds to play next song.

Connecting with the multimedia audio devices

IS901 is compatible with most of the audio devices, including your home hi-fi, car speaker, portable speaker and so on. You can use the 3.5-to-3.5mm audio cable or RCA cable to connect IS901 with these audio devices. When the audio connection is set up, you can play the music of your Bluetooth® device wirelessly from the audio device.

Remark: Before the audio connection sets up, IS901 should be paired and connected with your Bluetooth® device. Due to the different specification of each audio device, IS901 might not be compatible with all audio devices.

Noted: The RCA and 3.5-to-3.5mm audio cables are not the standard accessories. They are only available with the IS901 Premium version.

CONNECTING WITH A PC OR PDA

You are allowed to connect the headset with a Bluetooth® enabled PC or PDA that is supported with headset and/or handsfree profiles. Please refer to the user manual of your Bluetooth® enabled PC or PDA for setup information.

FACTORY RESET

To factory reset the headset, you will have to turn off the headset firstly. And then press and hold the MF-button for 8 seconds, you will see the red indicator light turns on in solid red for 2 seconds, the factory reset is successful.
